Here is the new world-class school near the Capital city of AP. It comes from the pioneers who have set a national record in giving the IIT foundation in school level and by producing hundreds of IITians year after year. Till now in 11 batches of its erstwhile students (Gowtham Schools) have secured 2214 IIT ranks, 2607 AIEEE ranks, 2466 BITSAT ranks and 5366 EAMCET ranks. This World School is all set to give foundation for SAT-I. Excellent faculty, Activity Based and Project Based teaching methodology are its forte. There is also a health foundation that sows the seeds of lifelong health consciousness through nutritious food, healthy life style, fitness program, sports and games.

The Campus is in the lap of a big, pristine valley. Children when exposed to nature do well in school with best attention spans, good perception skills and with lower stress levels

## A LETTER TO MY STUDENTS AND THEIR PARENTS

Esteemed parents and my dear students,

I feel great to share with you some special expressions of my life after 48 years of experience. To me, an old student is like an old friend. I am ever-grateful to the parents of my old students for what I am today. It is their faith and confidence coupled with the hard-work of my students that has put me in such a coveted position. Today, I am able to help hundreds of poor students financially so that they can pursue their education unhampered.

It was in 1976, after securing my M.Sc. and Ph.D. degrees from Banaras Hindu University, I started my career. I taught Intermediate, Degree and Engineering students for eight long years. Then, in 1984, I set up my own institution - Gowtham Residential Junior College in Currency Nagar, Vijayawada. It was in a rented premises, which was later shifted to our own campus in Gudavalli near Vijayawada. At that time my partners were late Sri Bulliah Garu, Late Sri Chowdary Babu and Sri Venkata Narayana. After working there for about 20 long years, I came out and established my own school in 2004, in Gudiwada.

When I started the school my view was to get a state wide recognition in a short period. I am the pioneer in implementing the system of 'Conceptual Teaching' that gave a strong foundation for competitive examinations like IIT (Adv), IIT (Mains), BITSAT and EAMCET. Generally, 90% of the schools in our country go without a seat in IIT, after their students finished the 10+2 level. I thought, if my new system of 'Conceptual Teaching' could fetch even two or three IIT ranks, it would create a record among all the schools. It was hard for me to see my first batch students scrambling around the junior colleges to pursue intermediate along with coaching for various competitive examinations like IIT, Mains and Advance, BITSAT and EAMCET. So, in 2006 I joined my 1st batch of students along myself as Academic Director in Sri Chaitanya IIT Academy in Gudavalli branch and ran the intermediate programme along with IIT coaching for two years.

Honestly speaking, the first batch was expected to fetch two or three IIT ranks from a single school. But, to everybody's surprise, it ended up with massive 73 national ranks. We were elated to see this. There was a furore in the academic circles as it was something that never happened before in the history of Indian schools. It not only created a national record of producing maximum number of IIT ranks from the students of a single school but also created a craze among the students and their parents for us.

As of now we have 30 schools across the state with about 30000+ students. Till date eleven batches of our alumni of our school secured 2214 IIT ranks in total after their 10+2, With this, we are the 'Number One' in the country in giving IIT foundation at school level. It is so because our actions have always been louder than words.

**Stupendous achievements by our students in these 16 batches with good ranks.**

### ABOUT THE NEW PROJECT

It has always been a long-cherished dream for me that I would set up a new kind of school and train the students so that they can learn living a happy life. Chasing this, I started building a 'high-end school' with all world-class learning amenities and infrastructure. It is located near Agiripalli, 30 kilometres from Vijayawada. Here I would like to share my vision for the new school, its prospects and programmes.

I believe, when a new school is being established, people should come to know about it in its very formative stage. Only then will the people start talking about it, and, as you know it very well that word of mouth is more powerful and effective than all the media put together. The personal opinion of parents of our students can hold water all the more because their wards secured high ranks in their wonderful schooling.

Here, I put forward to you the details of the aims and objectives, facilities, syllabi and other details of this school. I also request my alumni, who are like my old friends, and their parents to go through this and pass this information to their friends, relatives and acquaintances. Here, I want to make it very clear that I do not want my old students or their parents to request any other parent to put his / her ward(s) here. This is against my ethics. Instead, you may advise any prospective parent to pay a visit to the school campus and let them see with their own eyes, compare, analyze and then decide whether to put their wards here.

### ABOUT HAPPY VALLEY SCHOOL

I have always looked forward to bringing a feasible change in the scenario of school education wherein I would focus on five most important aspects of life-health, wealth, character, happy childhood and well - aimed education.

#### Health Foundation

We not only ensure academic excellence, but also take care of your child's health as well.

A research by the Physical Activity council, USA, corroborates that children lacking proper physical education are two times more likely to become sedentary in life. It increases the possibility of obesity and other medical disorders like heart diseases, high cholesterol, high blood pressure, diabetes, sleep apnea, etc. University of Illinois, Urbana, has proved that children having good physical activity have better mental function. As the number of inactive zones in the brain decreases with

physical activity, it leads to better fitness and better academic performance. A school is the right place and right time for games and sports; it is here where a major part of the active time of the children is spent along with peers. UNICEF has also identified games and sports as crucial components of quality education.

### Healthy Food

Our motto is to create a "Home away from Home" at HVS, and make children in their formative years of life relish all the delicious flavours from a medley of native and continental delicacies. We believe that good food followed by games and sports in the evening will complement the high standard academics in nurturing and grooming the children in a holistic manner. Our menu is designed meticulously and scientifically to strike a right balance between the right food and childish cravings. (Hush we do serve ice-creams, pizzas and burgers occasionally).

We believe in one thing strongly .If we feed the child with right kind of nutritious food in these formative years(School and+1,+2stage) their taste buds will be formed accordingly, which help them accept healthy food throughout their life thus maintain good health throughout life.

### Entrepreneurship (for Wealth)

We, at Happy Valley School, aim at creating job-creators. We shall churn out self-sufficient individuals with entrepreneurial skills by inculcating the fundamentals of financial management and related business acumen. It is good to find that our alumni have established numerous industries and businesses and are ready to extend their helping hands by being effective resource persons. We educate the students in studying a sector, identifying its business prospects and equip them with the technical know - how of starting and managing a business.

Field trips are arranged to nearby industries where the students observe, understand various aspects of sugar, cement, food etc... industries and present the projects on them.

### Human Value Education:

The greatest concern of the 21st century parents and teachers is probably their inability to inculcate the concept of "values" in

Meditation in Amphi Theatre

Hygienic Dining Hall

the minds of their wards. But, At HVS we have dutifully taken up the onus of this responsibility on our shoulders and have incorporated "Value Education" as an integral part of our curriculum up to Grade 9. By the time our students pass out- they will have been thoroughly groomed in the ancient Indian Values and ethos of

- i) Value of a family
- ii) Respecting parents, teachers, army people and farmers.
- iii) Developing helping nature
- iv) Conservation of food and energy.
- v) Explaining the ill effects of excessive screen time
- vi) What is healthy food and how to plan for lifelong health.
- vii) Respecting the nature and how to save the environment.
- viii) Value of friendship and how to choose a good friend.
- ix) Empathy
- x) ill effects of untimely gender attraction.
- xi) ill effects of bullying or ragging.
- xii) How to achieve and maintain good academic performance
- xiii) Dignity of labour
- xiv) Organic farming
- xv) ill effects of talking ill of others and spreading rumours.

### Education

Today, we are at the top in the country with 2214 IIT ranks, 2607 AIEEE ranks (now it's the IIT Mains), 2466 BITSAT and 5366 EAMCET ranks, secured 11 batches of our erstwhile school students

Sports

So far, in our existing schools we have focused only on ranks in competitive tests like IIT(adv) IIT (mains) AIEEE, BITSAT and EAMCET (Eng.), NEET (Medical) Here, in Happy Valley School, education is given a holistic approach to make complete individuals. Parents have various wishes - some want their children to get into prestigious institutions like IIT, NIT, BITS, etc.; some aspire that their children should become entrepreneurs and there by job-creators; and some others want their children to seek admission in good ranking universities abroad after their10+2. To satisfy all the above, we follow CBSE. Whatever may be the curriculum, our focus is to give foundation to achieve the desired targets.

#### Target - I

**Admission into prestigious institutions like IIT, NIT, BITS, JNTU and Medical:** There is a good section of parents who insist on providing foundation to enable their wards secure a seat in IIT, NIT, BITS, JNTU or the Medical Colleges. They are on the lookout for an institution which provides effective foundation along with excellent facilities and discipline. Happy Valley School is the right choice for them. For securing a rank in the competitive examinations, fundamental concepts of Mathematics, Physics, and Chemistry should be made thorough. And we are the best at it; we have proved it several times with our unparallel results.

#### Target - II

**Admission into good ranking Universities Abroad after 10+2:** Some parents plan to send their children to pursue graduation in good ranking universities abroad after completing 10+2.If foundation is given for SAT-1 at the school level, the chances of getting a respectable score in SAT and advanced placement examinations remarkably increase to secure an admission into eminent universities abroad.

### HAPPY CHILDHOOD IN HAPPY VALLEY SCHOOL

A child can be made happy with stress-free education right from the primary level in a friendly environment with nutritious food and enough time for sports and games. Every activity in the school is designed keeping in mind its student-friendliness and orientation to the happiness of the child. At Happy Valley School, (HVS) the following aspects are taken care of to keep the child jubilant and exulting while he/she pursues school education.

### We can build through unity Joy of Holy Foot Ball Court

### A) Ambience

Happy Valley School is nestled right in the lap of nature in a pristine valley between two parallel hills. Its expanse spreads over 40 acres of picturesque landscape. The big valley, the sprawling gardens with a variety of flowering and fruit-bearing plants and trees reflect unsullied atmosphere and a sense of well-being. It is a world with serene landscape and hill-scape replete with unpolluted air. The kids will have quiet time to ponder the eternal mystery of birds flying in the sky, butterflies enjoying the nectar in the flowers and myriad flowers on the hill slopes. One is bound to fall in love with the nature and can also observe the bees embroidering the silence of young night at about dinner time.

Enjoying the delicious food along with peers, playing in the green fields, loitering in the cave houses, climbing up the tree houses, strolling through the tree class rooms, having an occasional swim in the pool, driving the go-karts, boating in the big lake, flying the electronic helicopter and taking the aerial photographs, making the clay models of the statues, attending the music classes, shaking a leg in dance classes, being creative in making the short films, chasing a butterfly silently with a still camera, frolicking with friends... kids will have wonderful and unforgettable time of their childhood here in this Happy Valley.

### B) Hostel with Modern Facilities

**1. Residential Facilities:** Utmost care is taken to provide luxurious amenities for the boarders to make their stay comfortable, homely and hygienic. Each A/C room accommodates four inmates with comfortable furniture-cot, mattress, work-table, cupboards and a chair.

**2. Dining Facility:** Experienced chefs are appointed to prepare delicious vegetarian and non-vegetarian dishes of Indian and continental food for our students. Food is prepared in a spacious and well-designed modern kitchen.

It is for sure that food in Happy Valley School is hygienic, nutritious, delicious and plentiful. Frequent special treats and the care taken make the child feel at home. Food is served under the supervision of boarding staff.

The ambience in the well-furnished A/C dining hall, the quality and quantity of food gives the students a memorable and cherishable experience.

Table Tennis

### C) Recreation Facility

- 1. Go-Karting:** A beautiful and safe track is made for the students to take exclusive delight in go-karting. A convenient timetable is also designed so that all the students get equal opportunity for driving.
- 2. Boating in the lake:** 1. Happy Valley School has an aesthetically landscaped lake dedicated for water activities throughout the year. On one side of the lake, parents' resorts have been constructed amidst the mango trees wherein the parents can share the same campus with their wards occasionally. This prevents the students from falling homesick. Every water activity like riding in motor boats, etc. will be carried out with utmost care with life jackets and other necessary precautions.

### D) Hobby Development Centre

- 1. Aerial Photography:** 1. It is highly interesting to take the photographs of objects from a height of 100 meters with the gadget hovering above the object. And we have made this unique thing possible at Happy Valley School for our students. Old students of Gowtham Schools, who studied Aerospace Engineering at IIT Chennai, helped in setting it up. With this the students can gain hands-on-experience of handling this advanced electronic gadget.
- 2. Culinary Art:** We, at Happy Valley School, have planned to demonstrate the students the preparation of continental dishes by experienced chefs. Over here the students not only enjoy various recipes in the dining hall but also learn to prepare them.
- 3. Statue Making:** This is an amazing hobby. Over here, we train the students to make statues with special clay. If desired, the statue can also be made in marble, granite or fibre using this mould. Students who have an inclination towards fine arts will enjoy this immensely.
- 4. Fine Arts Club:** Here the students can learn Classical Dance, Western Dance, Vocal Music, and Instrumental Music.
- 5. Still Photography:** Over here Eminent still photo-graphers are invited to train the students in acquiring the technical and aesthetic know-how of this hobby. This pristine campus has myriad locations for both still and video photography.
- 6. Short Film Making:** In order to enhance the dormant instincts in a student, we have set up this short film making club. Over here, a student is given basic training in the important branches of film making.

**7. Robotics:** Taking the help of old students of Gowtham schools, this club has been set up to nurture a hobby that is highly technical, creative, innovative and interesting.

### E) Sports and Games

Sports and games have a remarkable role to play in a child's overall development. They inculcate the spirit of competitiveness and teamwork simultaneously. They keep the students physically fit and increase self-confidence. At Happy Valley School, we have a great sporting infrastructure with a sprawling ground, lush lawns, all that are just ideal for Cricket, Football and Hockey. There are also standard facilities for lawn tennis, basketball, volley-ball, shuttle badminton, billiards, table tennis, archery, go-karting and skating, etc. Proficient and dedicated coaches train the students to bring out the excellent sporting spirit and winning instincts in them.

### F) Indoor Swimming Pool

Countries like Sweden, Denmark, and Norway made it mandatory that all children should learn swimming, which will be useful in aquatic emergencies. Likewise, swimming lessons are mandatory in Happy Valley School too. Students who do not know how to swim will not be able to take part in the water activities; and they will miss the thrill. A beautifully designed swimming pool with basic standards has been set up, where the water is regularly filtered and chemically treated to comply with international standards of water hygiene.

### G) Amphitheatre

An aesthetically designed amphitheater provides a platform for conducting daily assembly and lectures by eminent personalities who have excelled in diverse fields like science, business acumen, personality development, human values and communication skills.

### H) Auditorium

Two well designed huge auditorium houses, Ten shuttle courts, table tennis and other indoor games serve as a meeting hall for the parents and the students.

HVS Students Participated in Harward Model United Nations in Boston (USA)

Reversal of Roles on Teacher's day

Students at IVY League Model United Nations Conference, Bangalore.

### I) Teaching Staff

Teaching Staff is the soul of all Academic Activities. Depth of knowledge, fluency in English, a flair for teaching, natural love and affection towards kids are pre-requisites for the teaching staff here. Teachers trained in CBSE guide the students through their schooling.

### J) Field Trips and Educational Tours

Field trips and educational tours improve the social awareness and help in observing different people with varied cultures. We make sure the trips are safe and enjoyable by escorting them with enough teaching staff who take care of all that is required in a short or long trips.

### K) Foundation for IIT (Mains), IIT (Adv), BITS, NEET is our forte

Dr. KKR's schools are well known for giving foundation for competitive tests to secure admissions into prestigious institutions like IIT, NIT, BITS, IIIT, Medical colleges etc. Our results have been proving this fact for years. In school level as well as 10+1, 10+2 level we have expert teaching staff for coaching the students to secure coveted ranks.

### L) Special Programme for Slow Learners

1. In order to understand the attention and focus of the students in the class room during teaching and their perception capacity, analytical thinking, fundamentals, hard-working nature and memory power we teach them for about 20 days taking one chapter each in Mathematics and science.
2. A screening test is conducted to separate the slow learners.
3. These students are placed in a separate section as they need special attention from teachers.
4. These children are taught slowly, repetitively taking care at each step to make them understand. Audio-Visuals of the chapters are presented to make learning process a fun. By taking feedback from these students we make it sure that the student is able to understand the lesson. Some important concepts are demonstrated in the laboratories.

Sankranti Festival

Festival of Lights

Industrial Visit

We join our hands in afforestation.

5. For any student to get good marks in the tests, the most prerequisite is listening to the lesson when taught in the class room
6. After placing them in separate section consisting of 15 to 20 students we counsel them explaining the importance and the need of education. We motivate them towards academics.
7. We conduct classes to reinforce the fundamentals of the subjects to enhance their perception level.
8. During study hours we take utmost care to make them study instead of whiling away the time. Before they start studying the day's task the lesson is explained to facilitate understanding and memorizing the subject they study.
9. A slip test is conducted at the end of the study hour to make sure that the student makes use of the study hour properly and not waste the time.

We are glad that Majority of the students have seen good progress through this special programme.

#### M) CBSE Board Exam Results of Our HVS Class 10th and +2 Students

\* Quality of teaching and quality of preparation for Board exams is highly productive in our school. The results of class 10th and +2 students are a proven fact.

#### World class facilities and education at Affordable fee:

Our ultimate mission is to groom our students academically by emphasizing on fundamentals of the subject. Providing healthy food to them to keep up excellent lifelong health and giving them good facilities so that they can comfortably focus on their studies. While other international schools are collecting huge amounts as fees we charge less than half of their fees, only to be able to reach out to students from across different strata of the society. We believe that good personal care, comfortable accommodation, healthy food and physical activities coupled with FACT program helps our students realize their dreams -- for which our students of Class 12, JEE (Mains) (Advance) and Medical Entrance results stand a solid testimony.

Above all, I have the wishes of my students and their parents who continue to stand like pillars of encouragement in every new step I take. They are my inspiration. With this faith I request you to give me your valuable and innovative suggestions that can make HAPPY VALLEY SCHOOL a milestone.

Finally my appeal to my students and their parents:

You can advise any prospective parent among your friends or relatives to visit the campus and observe various aspects of HVS.

*Handwriting: That action of emotion, of thought and of decision that has recorded the history of mankind, revealed the genius of invention, and disclosed the inmost depths of the heart.*

*Handwriting ties us to the thoughts and deeds of our forebears and serves as an irrevocable link to our humanity.*

*No machine or technology can replace the contribution or continuing importance of this skill. It has been necessary in every age and is just as vital to civilization as our next breath.*
